Serio Comic is a unique and innovative theater company that produces funny plays with an edge. Their work is often thought-provoking and explores important social issues, making them a favorite among theatergoers who are looking for something more than just a laugh.

Serio Comic was founded in 2002 by a group of actors and writers who were frustrated with the lack of diversity in the theater world. They wanted to create a company that would produce plays that were both funny and challenging, and that would appeal to a wide range of audiences.

Since its inception, Serio Comic has produced over 50 plays, including several award-winning works. The company has also toured extensively, performing in cities all over the United States as well as in Europe and Asia.

One of the things that makes Serio Comic's work so unique is its blend of humor and social commentary. The company's plays often tackle difficult subjects, such as race, gender, and class, but they do so in a way that is both entertaining and thought-provoking.

For example, Serio Comic's play "The White Card" is a comedy about a group of black actors who are struggling to make it in Hollywood. The play is both funny and heartbreaking, and it offers a unique perspective on the challenges that black actors face in the entertainment industry.

Another of Serio Comic's popular plays is "The Pink Tax," which explores the ways in which women are taxed more than men for everyday goods and services. The play is a hilarious and informative look at a serious issue, and it has helped to raise awareness of the issue of gender-based pricing.

Serio Comic's work is not for everyone. Some people find the company's plays to be too edgy or too political. However, for those who are looking for theater that is both entertaining and thought-provoking, Serio Comic is a must-see.
